CS112 (LFA): Lab 4

April 6, 2023

Note 1. *Individual discussions about homework.*

Exercise 1. *Implement a library/program in a programming language of your choosing to load and validate a CFG configuration file*

Exercise 2. *Implement a library/program that creates a CFG given an input config file.*

Exercise 3. *Create and test configuration file using the above engine for CFGs presented in 2.4 and 2.6 (Sipser - Chapter 2).*
